See website for detailed instructions and photos!

Quick Instructions (More details on website):

1. Print, cut out, and attach stencils to hardwood. (Use different wood species for the brown and green sections to make more appealing).
2. Cut out peices using a scroll saw and sand edges, starting with the inner eye.
3. Drill holes for the wings using 3/8 inch Forstner bit.
4. Assemble wings using glue and 3/8 inch dowel. Clamp and ensure wings can rotate.
5. Attach legs and hands with glue, ensuring wings can rotate. Clamp and dry for 24 hours.
